Claims 2, 3, 5, 8-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claims 1, 8, and 13 do not positively recite the "work platform" and the "workpiece" as part of the claimed combination. Accordingly, the recitation in claims 2, 3, 5, 10, 11, 14, and 15 of details of the "Moving platform on a Conveyor", "LCD Screen", "Measuring and Testing Equipment" renders the claims indeterminate of scope. The independent claims must positively set forth exactly what combination of elements is being claimed and the preamble of the the dependent claims must not purport to claim a larger combination of elements than is being claimed in the combination claims. In claim 8, line 5 "slots" is recited but in claim 8, line 12 only "slot" is recited. A similar confusion arises in claim 13. Should "slot" be -- slots --?

Claims 1, 4, 6, and 7 are allowed.

Analogous devices are taught by Meyer and Hillenburg.
